Dear Captain Sergiy Kholodkov and Crew of M/T SKYPOWER,

We are 6th grade students of Psychico College Primary School in Athens. Our school, is part of the Hellenic-American Educational Foundation in Attiki, in Greece.

There are 6 grades with 7 classes for each one, more than 90 teachers of all disciplines and approximately 1,100 pupils totally.

Our school participates in many educational programs and organizes several educational activities throughout the school year. One of these educational programs is called “adopt a ship”. So, we “adopted” your ship and we are thrilled about the opportunity to learn more about life at sea!

Throughout your voyages we will “travel” with you and we hope to expand our knowledge in various subjects related to sea life, the kinds of ships, the environment and, of course, your way of living and the customs of the different countries you visit!

We are really glad to begin our communication and we feel the need to thank you.

At present, until Christmas holidays, we are being taught at home since all schools in Greece are temporarily closed because of the lockdown. Under these circumstances, we are trying to do our best. We miss school and we want to return to our actual classroom being close to our friends and teachers.

We try to remain confident and keep a positive outlook to get through this difficult time. We spend time studying, reading books, playing games and watching TV but mostly we do things with our family members – that is a positive aspect of the quarantine.

During these difficult times for the whole world, we especially think about you.

We would like to ask you some questions in order to learn a few things about “M/T SKYPOWER” and its voyages.

- As we monitor your current position through “*marine traffic*” what will your next destination be?
- What is the capacity of your crew and their nationality?
- What is the main language you use for communication?
- In what ways has your life changed because of the coronavirus pandemic?

We understand how difficult it can be being far away from your loved ones, especially at a time like this. Our teacher showed us a picture which describes the situation and we would like to thank you for being there working at the frontline, providing the whole world with all the supplies we need.

We hope that you are all safe, healthy and stay positive! We wish you merry Christmas to you and your families.

We are looking forward to hearing from you soon! Safe voyages!

Your sincerely,
The Students and Teacher of 6d
